

HOW TO CREATE A YOUTUBE ACCOUNT IF YOU DO NOT USE GMAIL AS YOUR EMAIL ACCOUNT PROVIDER

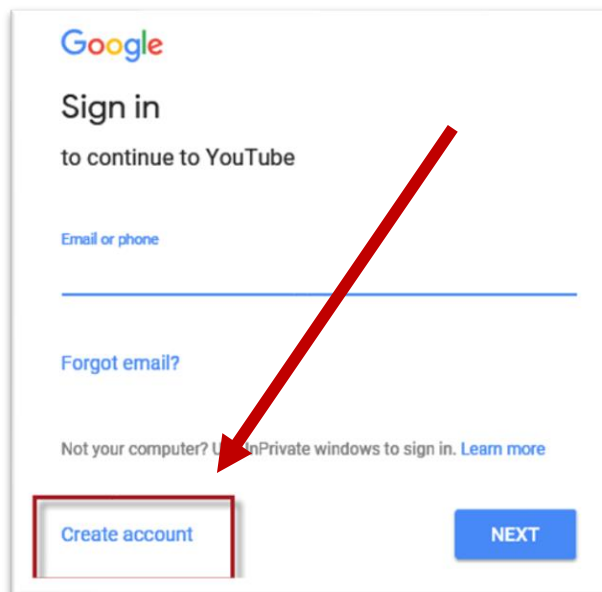

In order to comment or pose a question on a YouTube broadcast, you need to have an account so it can identify you. This is to prevent anonymous remarks. If you use gmail (yourname@gmail.com), then a YouTube account is automatically generated.

If you use another email provider (hotmail, sympatico, yahoo, rogers, etc.) please follow these steps to create your YouTube account.

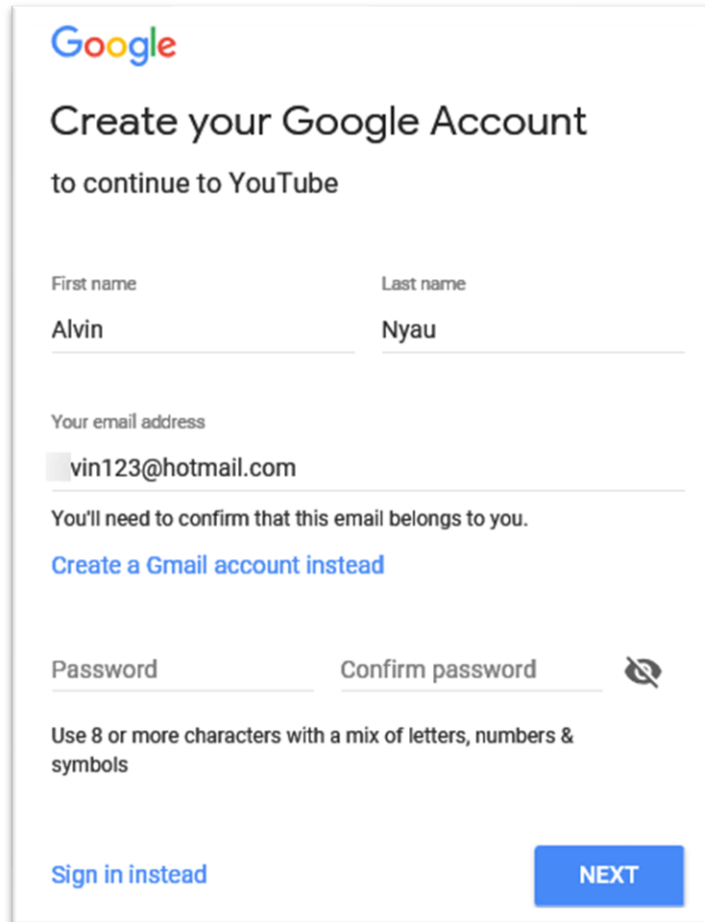

- Go to [Youtube.com](https://www.youtube.com/) on your internet browser.
- Click on the **Sign In** button at the top right corner of the webpage.

- On the Sign In form, click on the **Create account** link.

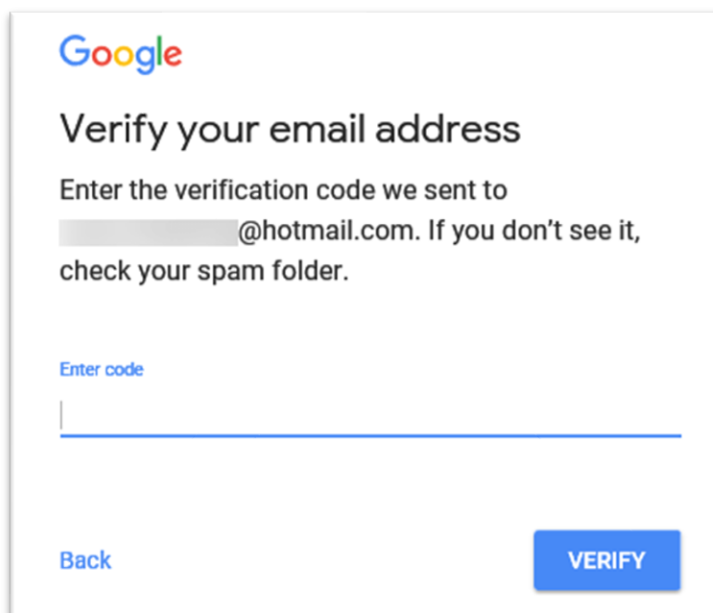

- Enter your name, **your existing email address**, and your desired password.

The screenshot shows the Google Account creation interface. At the top is the Google logo. Below it, the heading reads "Create your Google Account" followed by "to continue to YouTube". There are two input fields for "First name" (containing "Alvin") and "Last name" (containing "Nyau"). Below these is a "Your email address" field containing "vin123@hotmail.com". A note states "You'll need to confirm that this email belongs to you." with a link "Create a Gmail account instead". There are two password fields: "Password" and "Confirm password", with a visibility toggle icon. A note below the password fields says "Use 8 or more characters with a mix of letters, numbers & symbols". At the bottom left is a link "Sign in instead" and at the bottom right is a blue button labeled "NEXT".

- Google will then send a verification code to the email address you entered.
- Check that email account.
- Copy the code and paste it to the Enter code screen. Or just type it in.

The screenshot shows the verification step. At the top is the Google logo. Below it, the heading reads "Verify your email address". The text says "Enter the verification code we sent to [redacted]@hotmail.com. If you don't see it, check your spam folder." Below this is a label "Enter code" and a text input field. At the bottom left is a link "Back" and at the bottom right is a blue button labeled "VERIFY".

- Click on the **Verify** button after entering the code.
- Follow the rest of the on-screen instructions to complete the sign-up for your YouTube account.
- When the account creation is successful, you can then sign into YouTube.com using that particular email address.
- Whenever you return to YouTube in the future, your internet settings should remember your settings, so you may not have to enter your email address and password.
